MATTHEWS INTERNATIONAL CAPITAL MANAGEMENT, LLC

March 2018

This statement provides you with key information about this product.

This statement is a part of the offering document.

You should not invest in this product based on this statement alone.

QUICK FACTS

Fund Manager: Matthews International Capital Management, LLC

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Ongoing Charges Over a Year[^]:

Class A Acc USD [*]	1.74%	Class A Acc GBP [*]	1.73%	Class I Acc EUR ^{**}	1.30%
Class A Dist USD [*]	1.74%	Class A Dist GBP [*]	1.73%		
Class I Acc USD [*]	1.25%	Class I Acc GBP [*]	1.22%		
Class I Dist USD [*]	1.24%	Class I Dist GBP [*]	1.23%		

Dealing Frequency: Every Valuation Day which is also a Hong Kong Business Day

Base Currency: USD

Dividend Policy: No dividends will be declared or distributed for accumulation (“**Acc**”) shares.

Dividends for distribution (“**Dist**”) shares will be discretionary and if distributed will be made at least annually (and usually on a quarterly basis). Dividends (if any) may be distributed to the relevant Shareholders or reinvested into the Sub-Fund (defined below). Distributions may be paid out of capital or effectively out of capital and, if so, may reduce the Sub-Fund’s net asset value (“**NAV**”).

Financial Year End of the Sub-Fund: 31 March

Minimum Investment:

	Initial Investment	Subsequent Investment
Class A GBP:	GBP 500	GBP 250
Class A USD:	USD 1,000	USD 500
Class I GBP:	GBP 500,000	GBP 125,000
Other I Share Classes:	USD 1,000,000	USD 250,000

[^] The ongoing charges figure for Class A Shares and Class I Shares are capped at 2.00% and 1.50% respectively, per annum of the average NAV of the relevant share class and shall not exceed such maximum level. Should the actual ongoing charges figure exceed such maximum level, the Fund Manager shall waive fees and/or reimburse expenses to the extent necessary to limit the ongoing charges to the stated maximum.

^{*} The ongoing charges figure is based on expenses for the fiscal year ended 31 March 2017 as stated in the Fund’s annual report dated 31 March 2017 and expressed as a percentage over the average NAV of the share class for the corresponding period. This figure may vary from year to year.

^{**} Since Class I Acc EUR has not yet been in existence for a full fiscal year, best estimates were used for the ongoing charges figure which is calculated based on the estimated total costs borne by the class over a 12-month period divided by the estimated average net assets over the same period. This figure may vary from year to year.

WHAT IS THIS PRODUCT?

Asia Dividend Fund (the “**Sub-Fund**”) is a sub-fund of the Matthews Asia Funds (the “**Fund**”) which is constituted in the form of an umbrella mutual fund. It is domiciled in Luxembourg and its home regulator is the *Commission de Surveillance du Secteur Financier*.

OBJECTIVE AND INVESTMENT STRATEGY**Objective**

The Sub-Fund seeks to provide a level of current income that is higher than the yield generally available in Asia Pacific equity markets over the long term.

Strategy

Under normal market conditions, the Sub-Fund seeks to achieve its investment objective by investing at least 80% of its total net assets, directly, or indirectly through collective investment schemes, convertible securities or other similar instruments, in income-paying publicly traded common stocks, preferred stocks, convertible preferred stocks and other equity-related instruments (including investment trusts and other financial instruments) of companies located in the Asia Pacific region* that exhibit attractive dividend yields and the propensity (as assessed by the Fund Manager) to pay dividends. On an ancillary basis, the Sub-Fund may invest in other permitted assets on a worldwide basis including equities, and other securities which are transferrable, collective investment schemes, and/or other similar instruments admitted to or dealt in on a Regulated Market†, and other assets which are considered by the Sub-Fund to be of good potential growth in its value and which may, thus, increase the overall value of the Sub-Fund’s investment portfolio.

A company is considered to be “located” in the Asia Pacific region if it has substantial ties to the region, including, for example, it (i) is organized under the laws of a country in the region; (ii) derives at least 50% of its revenues or profits from goods produced or sold, investments made, services performed, in the region, or has at least 50% of its assets located within the region; (iii) has the primary trading markets for its securities in the region; or (iv) is a governmental entity or an agency, instrumentality or political subdivision of a country in the region.

The Sub-Fund may invest significantly in smaller companies with growth potential and good investment value. Larger portions of stocks of such smaller companies may be held by a small number of investors (including founders and management) in the companies than is typical of larger companies.

The Sub-Fund may invest (whether directly or indirectly) in China A Shares, either directly via a Qualified Foreign Institutional Investor (“QFII”) license awarded to a Matthews group entity, or via the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect programs (collectively the “Stock Connects”), or indirectly via investment in access products. In any event where the Sub-Fund invests directly in China A Shares, under normal market conditions, it is expected that the Sub-Fund will not hold more than 10% of its net assets in China A Shares. The Sub-Fund may directly invest not more than 10% of its total assets in China B shares.

Although the Sub-Fund does not intend to exceed the limits on direct investment in China A and B Shares as described above, it is possible that, under certain market conditions, the Sub-Fund may hold (directly and indirectly) up to 30% of its net assets in aggregate in China A and B Shares. As such, the Sub-Fund may be subject to a higher degree of risk and volatility.

The Sub-Fund is not currently using, and has no intention to use, financial derivative instruments for any purpose, whether for hedging, investment or efficient portfolio management purposes. Should the Sub-Fund propose to change this policy in the future, the Fund will seek prior approval to do so from the Securities and Futures Commission (“SFC”) and will give all Shareholders at least one month’s prior notice before such change taking effect.

* For the purpose of this Sub-Fund, the “Asia Pacific region” shall be deemed to consist of all countries and markets in Asia, as well as Australia and New Zealand, including all developed, emerging and frontier countries and markets in Asia.

† “Regulated Market” generally includes a regulated market in any Member States of the EU or any other state in Eastern and Western Europe, Asia, Africa, Australia, North and South America and Oceania, which operates regularly and is recognized and open to the public.

WHAT ARE THE KEY RISKS?

Investment involves risks. Please refer to the offering document for details including the risk factors.

General Investment Risk

The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.

- **Dividend Paying Equities Risk**

There can be no guarantee that companies that the Sub-Fund invests in, and which have historically paid dividends, will continue to pay them or to pay them at the current rates in the future. A reduction or discontinuation of dividend payments may have a negative impact on the value of the Sub-Fund's holdings in these companies and, consequently, the NAV of the Sub-Fund.

- **Equity Market Risk**

The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

- **Concentration Risk**

The Sub-Fund's investments are concentrated in the Asia Pacific region. The value of the Sub-Fund may be more volatile than that of a fund having a more diverse portfolio of investments. The value of the Sub-Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the Asia Pacific region.

- **Risk Associated with High Volatility of the Equity Market in the Asia Pacific Region**

High market volatility and potential settlement difficulties in the markets may also result in significant fluctuations in the prices of the securities traded on such markets and thereby may adversely affect the value of the Sub-Fund.

- **Risk Associated with Regulatory Requirements of the Equity Market in the Asia Pacific Region**

Securities exchanges in the Asia Pacific region typically have the right to suspend or limit trading in any security traded on the relevant exchange. The government or the regulators may also implement policies that may affect the financial markets. All these may have a negative impact on the Sub-Fund.

- **Emerging Markets Risk**

The Sub-Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risks, currency risks/control, political and economic uncertainties, legal and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.

- **Currency Risk**

Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. Also, a class of shares may be designated in a currency other than the base currency of the Sub-Fund. The NAV of the Sub-Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

- **Risk Associated with Smaller Companies**

Larger portions of smaller companies may be held by a small number of investors (including founders and management) in such companies than is typical of larger companies. As a result, the rights of minority owners may be restricted or not fully respected in corporate governance or corporate actions. Securities of smaller companies may trade less frequently, in lower volumes and with less liquidity and be subject to greater price movements than more widely held securities or the securities of larger, more established companies, or the market indices in general.

- **Risk Associated with Investment in China A Shares**

The Sub-Fund may invest in securities of companies based in the People's Republic of China ("PRC"), listed and traded on China's domestic stock exchanges and denominated in renminbi ("China A Shares"). The Sub-Fund's investment in China A Shares is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors. Investments in China A Shares may

be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory events affecting the PRC. China A Shares may have lower liquidity and their prices are more volatile to adverse economic developments than those of securities traded in a more developed market.

- **RMB Currency and Conversion Risk**

Renminbi (“RMB”) is currently not freely convertible and is subject to exchange controls and restrictions. Non-RMB based investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors’ base currency (for example HKD) will not depreciate. Any depreciation of RMB could adversely affect the value of investor’s investment in the Sub-Fund. Although offshore RMB (CNH) and onshore RMB (CNY) are the same currency, they trade at different rates. Any divergence between CNH and CNY may adversely impact investors.

- **Risk Associated with Investment made through QFII Regime**

The Sub-Fund may suffer losses if there is insufficient QFII quota allocated for the Sub-Fund to make investments, the approval of the QFII status of the Investment Manager is being revoked, terminated or otherwise invalidated as the Sub-Fund may be prohibited from trading of relevant securities and repatriation of the Sub-Fund’s monies, or if any of the key operators or parties (including the QFII custodian or brokers) is bankrupt, in default, or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities).

- **Risk Associated with the Stock Connects**

The relevant rules and regulations on the Stock Connects are subject to change which may have potential retrospective effect. The Stock Connects are subject to quota limitations. Where a suspension in the trading through the program is effected, the Sub-Fund’s ability to invest in China A Shares or access the PRC market through the program will be adversely affected. In such event, the Sub-Fund’s ability to achieve its investment objective could be negatively affected.

- **PRC Tax Risk**

There are risks and uncertainties associated with the current PRC tax laws, regulations and practice in respect of capital gains realized via QFII quota or Stock Connects or access products on the Sub-Fund’s investments in the PRC (which may have retrospective effect). Any increased tax liabilities on the Sub-Fund may adversely affect the Sub-Fund’s value. Because the Sub-Fund did not hold any China A Shares prior to 17 November 2014, based on professional and independent tax advice, the Sub-Fund will not make any provisions for tax on gross realized or unrealized capital gains derived from trading China A Shares.

- **Risk Relating to Dividends Paid out of Capital**

Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor’s original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the NAV per share of the Sub-Fund.

- **Non-hedging Risk**

The Sub-Fund does not currently use hedging techniques to attempt to offset certain market risks. Hedging against a decline in the value of a portfolio position seeks to establish other positions which are designed to gain from the decline in the value of a portfolio position and, thus, moderate the values of, or prevent losses to, the Sub-Fund, if the value of its portfolio position declines. Non-use of hedging techniques may expose the Sub-Fund to the risk of full losses resulting from the decline in the value of its portfolio positions, thereby subjecting its NAV to greater fluctuation than if such hedging techniques had been utilized.

HOW HAS THE SUB-FUND PERFORMED?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The performance shown is for the representative Class A (Acc) USD. Class A (Acc) USD is selected as the representative share class as it is open for investment by Hong Kong retail investors and broadly indicative of the Sub-Fund’s performance characteristics. Past performance for all other share classes is available in English only from the Hong Kong Representative upon request.
- The bar chart shows the representative share class’ yearly returns. The returns are provided for all the years for which performance data is available for the complete calendar year since the launch of the representative share class. Where no past performance is shown, there is insufficient data available in that year to provide a useful indication of past performance to investors.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividends reinvested.
- Performance figures have been calculated in USD, including ongoing charges and excluding any subscription fee and redemption fee you might have to pay.
- The Benchmark for the Sub-Fund is the MSCI All Country Asia Pacific Index.
- Sub-Fund launch date: 30 April 2010.
- Class A (Acc) USD launch date: 26 August 2010.

IS THERE ANY GUARANTEE?

This Sub-Fund does not have any guarantees. You may not get back the full amount of money you invest.

You may have to pay other fees when dealing in the shares of the Sub-Fund.	
ADDITIONAL INFORMATION	
<ul style="list-style-type: none"> You generally buy and redeem shares at the Sub-Fund’s next-determined NAV after the Hong Kong Representative receives your request in good order on or before 6:00PM (Hong Kong Time) on a Valuation Day which is also a Hong Kong Business Day, being the dealing cut-off time. Third party distributors may impose different dealing deadlines for receiving requests from investors. The NAV of this Sub-Fund is calculated, and the price of shares published in the South China Morning Post and the Hong Kong Economic Journal in Hong Kong, on each Valuation Day which is also a Hong Kong Business Day. The composition of dividends (<i>i.e.</i> the relative amounts paid out of net distributable income and capital), if any, paid on the distribution shares of the Sub-Fund for the preceding 12 months is available from the Fund or the Hong Kong Representative upon request.
