Investment Objective

Seeks to achieve total return with an emphasis on providing current income.

Risk Considerations

- Investment involves risk. Past performance is not a guide to future performance. It is possible to lose the principal capital of your investment.
- The Fund invests primarily in Asia ex Japan countries and economies. Investment in such emerging markets may be subject to increased risks such as political, social, tax, economic, policy, market, liquidity, trading, custody and settlement, currency, legal and regulatory risks.
- The Fund may, at its discretion, pay dividends out of the capital or effectively out of capital in respect of the distribution shares. Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment, or from any capital gains attributable to that original investment. Any distribution may result in an immediate reduction of the net asset value per share of the Fund.
- The Fund invests primarily in equity securities, which may result in increased volatility.
- The Fund may invest in smaller companies which are likely to carry higher risks than larger companies.
- The Fund may invest in financial derivative instruments ("FDIs"). Risk associated with FDIs include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. Exposure to FDIs may lead to a high risk of significant loss by the Fund.
- The Fund may use hedging techniques to attempt to offset certain market risks but there is no guarantee that hedging techniques will fully and effectively achieve their desired result.
- Pandemics and other public health emergencies can result in market volatility and disruption.
- Investors should not invest in the Fund solely based on the information in this document.

3 Percentage values in data are rounded to the nearest tenth of one percent; the values may not sum to 100% due to rounding. Percentage values may be derived from different data sources and may not be consistent with other Fund literature.

4 Equity market cap of issuer.

5 The P/E Ratio is the share price of a stock as of the report date, divided by the forecasted earnings per share for a 12-month period (FY1) and 24 month period (FY2). For the Fund, this is the weighted harmonic average estimated P/E ratio of all the underlying stocks in the Fund, excluding negative earners. There is no guarantee that the composition of the Fund will remain unchanged, or that forecasted earnings of a stock will be realized. Information provided is for illustrative purposes only.

6 The Dividend Yield (trailing) is the weighted average sum of the dividends paid by each equity security held by the Fund over the last 12 months divided by the current price as of report date. The annualised dividend yield for the Fund is for the equity-only portion of the Fund and does not reflect the actual yield an investor in the Fund would receive. There can be no guarantee that companies that the Fund invests in, and which have historically paid dividends, will continue to pay them or to pay them at the current rate in the future. A positive distribution yield does not imply positive return, and past yields are no guarantee of future yields.
