Matthews Asia Funds

31 March 2021

Investment Objective

Seeks to achieve long-term capital appreciation.

Risk Considerations

- Investment involves risk. Past performance is not a guide to future performance. It is possible to lose the principal capital of your investment.
- The Fund invests primarily in India-related companies. Investments in such companies may be subject to increased risks such as political, tax, economic, policy, market, liquidity, trading, custody and settlement, currency, legal and regulatory risks.
- The Fund invests primarily in equity securities, which may result in increased volatility.
- The Fund may invest in smaller companies which are likely to carry higher risks than larger companies.
- The Fund may invest in financial derivative instruments ("FDIs"). Risk associated with FDIs include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. Exposure to FDIs may lead to a high risk of significant loss by the Fund.
- The Fund may use hedging techniques to attempt to offset certain market risks but there is no guarantee that hedging techniques will fully and effectively achieve their desired result.
- Pandemics and other public health emergencies can result in market volatility and disruption.
- Investors should not invest in the Fund solely based on the information in this document.
