### Report of the Board of Directors of the Fund to the Shareholders

The Board of Directors of the Fund (the "Board") is pleased to present the Annual Report of the Fund, including the audited financial statements, for the year ended 31 March 2022. These have been prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

#### Activities and outlook

During the year ended 31 March 2022, the Fund launched one new sub-fund during the year, the Asia Innovative Growth Fund. There are 12 sub-funds in issue. The separate Investment Manager's report included in this Annual Report reviews the performance of the sub-funds, summarizes the economic environment during the period, and provides an outlook for the upcoming period.

#### Covid-19

The emergence and evolution of Covid-19 has created economic and financial disruptions in the global economy which has led to operational challenges. In line with national and local guidelines, the Management Company, Investment Manager, Global Distributor, Depository Bank, Administrative Agent, and other service providers of the Fund have required staff to work from home and business travel has been severely restricted.

The Board of Directors, in concertation with the Fund's service providers, has carefully considered the impact of the Covid-19 outbreak and its impacts on the Fund and on the markets in which it invests. As at the date of this report, the Fund has not received significant net redemptions, and the ability of its principal service providers to function has not been significantly impaired. On this basis, the Board does not believe that there has been a material impact on the ability of the Fund to operate normally.

#### Russia-Ukraine conflict

Following military operations initiated by Russia against Ukraine on 24 February 2022, several countries, including the US, UK, and EU, have imposed sanctions against certain entities and individuals connected to the Russian Federation.

The ongoing conflict, together with growing turmoil from fluctuations in commodity prices and foreign exchange rates, has the potential to impact adversely global economies and has driven a sharp increase in volatility across markets. Although neither the Fund nor any of its sub-funds have been significantly impacted by the above at the date of the current report, the Board of Directors of the Fund continues to monitor the evolving situation and its impact on the financial position of the Fund and its sub-funds.

#### **Corporate Governance**

The Board has put in place a framework for corporate governance which is consistent with the principles and recommendations of the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg Investment Funds (the "Code"). The Code sets out principles of good governance and a code of best practice. It can be found on the Association's website www.alfi.lu.

#### The Board

The Directors of the Fund are responsible for supervising the Fund in accordance with its articles of incorporation, prospectus, and laws and regulations applicable to Luxembourg investment funds. The names and addresses of the Directors are listed with their principal occupations in the Management and Administration section of this report. More detailed biographical information is disclosed on the Fund's website at global.matthewsasia.com.

The Board holds formal Board meetings at least four times a year. At the Board meetings, the Directors review the management of the Fund's assets and all other significant matters to ensure that the Directors maintain overall control and supervision of the Fund's affairs. The Board is responsible for the appointment and monitoring of all service providers to the Fund.

The Directors are kept fully informed of investment and financial controls and other matters relevant to the business of the Fund. The Directors are responsible for ensuring that the Fund's annual report, including the audited financial statements, are prepared in accordance with Luxembourg GAAP and applicable legal and regulatory requirements.

#### **Internal Controls**

The Board is also ultimately responsible for the Fund's system of internal controls and for reviewing its effectiveness. The Board confirms that there is an ongoing process for identifying, evaluating, and managing the significant risks faced by the Fund.

#### The Annual General Meeting

### Investment Manager's Report

The past 12 months have been difficult for our markets. Normally, a reflationary environment would be considered good for Asia, however, several factors have combined to provide some serious headwinds. The term "perfect storm" is over-used but I would say it's quite appropriate for these times.

Early into the financial year beginning last April, the rally in growth stocks, driven in part by hopes of mass vaccines bringing more normal economic conditions, petered out as rising bond yields hit conceptual, loss-making stocks particularly hard. We saw a switch from "growth" to value" or, more accurately put, to an environment where cyclical stocks with low valuations and often marginal business models in sectors like raw materials, banks, and industrials tended to perform rather well. This trend caused headwinds because many of these sectors do not necessarily perform well over the long run, which is the horizon most of our funds are pivoted towards.

The second headwind of the financial year was the after-effects of China's regulatory decisions, which included interventions designed to safeguard equal access to education, prevent anti-competitive practices among online consumer platforms, and shield data privacy in areas like digital finance. These moves, which the government has since said were poorly executed, fueled negative sentiment towards Chinese stocks. Compounding this headwind has been the prospect that Chinese stocks listed in the U.S. may face being delisted as a result of an auditing spat between the U.S. and China.

#### Tough Start to 2022

As we entered 2022, better returns were to be had outside of China and thanks to its stable macro environment, recovery in earnings growth and expansion of industrial exports, India continued to deliver meaningfully for investors. But nobody could have foreseen how the first quarter was set to unfold. Russia's tragic invasion of Ukraine triggered a surge in energy and commodity prices, adding to the global inflationary environment and forcing Asia's markets, which for the most part are energy importers, on to the back foot with businesses having to recalibrate their business models and earnings outlooks. The value investment trend hardened further.

As for China, the geopolitical balancing act it's performing between East and West—most visibly manifesting itself in not condemning Russia's invasion of Ukraine—isn't winning many friends among overseas investors and has heaped more pressure onto the depressed valuations of its equities. Rounding off the forces besieging China's markets are its own imposed COVID lockdowns. While the Chinese government won't be deterred from its zero COVID-19 policies it will need to review how it intends to meet its stated 5.5% 2022 GDP growth rate given the significant impact the lockdowns are having on international trade and domestic consumer spending.

So all in all, looking back, it's been something of a perfect storm. Is there a calm ahead? Well it's important to recognize that Asia isn't just China and that, in spite of the energy and commodity supply shocks deriving from the Ukraine conflict, some parts of the region have seen relatively strong performance, among them Singapore, Indonesia and Thailand. As I said at the beginning, it's not unusual for Asia markets to do well when prices start rising and the U.S. Federal Reserve begins to hike rates. General reflation tends to help Asia's economies and it tends to be favorable for smaller companies over large caps.

### Investment Manager's Report (continued)

#### Long-term growth philosophy

And our experience of investing in Asia's markets over the decades, which has certainly included some tumultuous times, serves us well in helping retain a perspective. Perfect storms are a short-term phenomenon. Many of the headwinds we face aren't here for the long-term. Of them all, the move by markets to value from growth is perhaps the most challenging. But on this issue I would say, firstly, this is not the time to chase short-run, cyclical growth. The market can easily whipsaw back and hurt us as these stocks correct. Far better to stick with our long-term growth philosophy. Secondly, we need to look through the companies in our portfolios to check that the operational performance of the businesses is still strong. For the surge in cyclical and value stocks may very well be linked to current inflationary pressures.

The bond market continues to tell us that it thinks this is a relatively shortterm environment and even, on some measures, that inflation has peaked. If that's the case then it is not unlikely that we return to the environment that preceded the pandemic lockdowns—one of disinflationary growth. That environment in the past has proved to be a time when valuation premiums for growth stocks have risen.

As for China, there are promising signs that some of the most negative headwinds will soon be subsiding. It has recently said it will be pulling back on regulatory interventions and providing more support to the private economy. China's authorities have also pledged to allow widespread inspections of auditor's books giving hope that a forced delisting of Chinese stocks from U.S. markets won't materialize. And COVID lockdowns, however disruptive, are temporary. When these headwinds subside, China, unlike the West, may find itself in a benign environment, with inflation under control, consumers ready to spend, and undervalued growth equities seemingly on sale.

#### **INDEPENDENT AUDITORS' REPORT**

#### Opinion

We have audited the financial statements of Matthews Asia Funds (the "Fund") and of each of its sub-funds, which comprise the statement of assets and liabilities and the schedule of investments as at 31 March 2022 and the statement of operations and changes in net assets for the year then ended, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 March 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the independent auditor for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the independent auditor thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Société à responsabilité limitée au capital de 360.000 € RCS Luxembourg B 67.895 Autorisation d'établissement 10022179

### Deloitte.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the Independent Auditor for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the independent auditor that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the independent auditor to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the independent auditor. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, "related safeguards".

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A) PRESENTATION OF FINANCIAL STATEMENTS

The financial statements are prepared in accordance with Luxembourg law and regulations relating to UCITS and generally accepted accounting principles in Luxembourg.

#### **B) COMBINED FINANCIAL STATEMENTS**

The Combined Financial Statements equal the sum of the financial statements of all Sub-Funds.

The Combined Statement of Assets and Liabilities and Combined Statement of Operations and Changes in Net Assets are expressed in USD. The currency of all Sub-Funds is USD and therefore there is no currency translation adjustment.

#### C) VALUATION OF THE INVESTMENTS IN SECURITIES AND MONEY MARKET INSTRUMENTS

The Fund's equity securities are valued based on market quotations or at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund when no market quotations are available or when market quotations have become unreliable.

Market values for equity securities are determined based on the last sale price on the principal (or most advantageous) market on which the security is traded. If a reliable last sale price is not available, market values for equity securities are determined using the mean between the last available bid and ask price. Securities are valued through valuations obtained from a commercial pricing service or at the most recent mean of the bid and ask prices provided by investment dealers in accordance with the Fund's Pricing Policies.

Securities that trade in over-the-counter markets, including most debt securities (bonds), may be valued by other thirdparty vendors or by using indicative bid quotations from dealers or market makers, or other available market information.

Events affecting the value of foreign investments may occur between the time at which they are determined and the Fund's valuation point of 2:00 p.m. Luxembourg time. When such events occur, each Sub-Fund may apply a modelderived factor, as provided by an independent pricing service, to the closing price of equity securities traded on foreign securities exchanges. Notwithstanding the foregoing, the Fund may determine not to fair value securities where it believes that the impact of doing so would not have a material impact on the calculation of a Sub-Fund's NAV on that day.

The Board of Directors of the Fund has delegated the fair value analysis and assessment to the Investment Manager's Valuation Committee (the "Valuation Committee"), subject to the Fund's Pricing and Valuation Policy and Procedures (the "Pricing Policies"). The Fund has retained third-party pricing services that may be utilized by the Valuation Committee under circumstances described in the Pricing Policies to provide fair value prices for certain securities held by the Fund. To propose the fair value price of the suspended securities, the Valuation Committee may use techniques such as analysis of the price movements of selected proxies / indices whose performance might indicate valuation changes of the suspended securities.

When fair value pricing is used, the prices of securities used by a Sub-Fund to calculate its Net Asset Value differ from quoted or published prices for the same securities for that day. All fair value determinations are made subject to the Board of Directors of the Fund's oversight.

#### D) NET REALIZED GAIN/(LOSS) ON SALES OF INVESTMENTS AND CHANGE IN UNREALIZED GAIN/(LOSS) ON **INVESTMENTS**

Net realized gain or loss on sales of investments are calculated on the basis of first in first out cost method of the investments sold. At year end, holdings in securities have been valued at their last available prices on the main market for the relevant security. The net realized gain or loss and net change in unrealized gain or loss are included within the Statement of Operations and Changes in Net Assets.

#### E) FORWARD CURRENCY EXCHANGE CONTRACTS

A forward currency exchange contract is an agreement to buy or sell a specific amount of foreign currency at a certain rate, on or before a certain date. Outstanding forward currency exchange contracts are valued by reference to the forward rate of exchange applicable to the maturity of the contracts.

The unrealized gain and loss are shown in the Statement of Assets and Liabilities under "Unrealized gain on forward currency exchange contracts" and "Unrealized loss on forward currency exchange contracts.'

Net realized gain/(loss) and net change in unrealized gain/(loss) as a result thereof are included in the Statement of Operations and Changes in Net Assets under "Net realized gain/(loss) on forward currency exchange contracts" and "Net change in unrealized gain/(loss) on forward currency exchange contracts," respectively.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### F) INTEREST RATE SWAP AGREEMENTS

An interest rate swap agreement is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series for interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. Dirty pricing is utilized for all interest rate swap agreements where the floating rate index resets daily.

The unrealized gain and loss as shown in the Statement of Assets and Liabilities under "Unrealized gain on interest rate swap agreements" and "Unrealized loss on interest rate swap agreements."

Net change in unrealized gain/(loss) as result thereof is included in the Statement of Operations and Changes in Net Assets under "Net change in unrealized gain/(loss) on interest rate swap agreements."

In case of settlements of the interest rate swap agreements, the net realized gain/(loss) as a result thereof is included in the Statement of Operations and Changes in Net Assets under "Net realized gain/(loss) on interest rate swap agreement."

#### G) CONVERSION OF FOREIGN CURRENCIES

The books and records of the Fund are maintained in USD.

Transactions denominated in foreign currencies are recorded at the current prevailing exchange rates on the transaction date. All assets and liabilities denominated in foreign currencies are translated into USD at the exchange rate as at 31 March 2022.

Conversion gains or losses resulting from changes in the exchange rate during the year and realized gains and losses on the settlement of foreign currency transactions are reported in the Statement of Operations and Changes in Net Assets for the current year.

The Fund does not isolate that portion of gains and losses on investments in equity securities that are due to changes in the foreign exchange rate from those that are due to changes in market prices of equity securities.

The accounting records and the financial statements of each Sub-Fund are expressed in USD.

Bank accounts, other net assets and market value of the investments in securities expressed in currencies other than the currency of a Sub-Fund are converted at the exchange rates prevailing on the date of the Statement of Assets and Liabilities. Income and expenses in currencies other than the currency of a Sub-Fund are converted at the rate of exchange prevailing at the transaction date.

Net realized gain and loss on foreign exchanges and net change in unrealized gain and loss on foreign exchanges represent: (i) foreign exchange gains and losses from the sale and holding of foreign currencies; (ii) gains and losses between trade date and settlement date on securities transactions and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

### H) COST OF INVESTMENTS IN SECURITIES

Cost of investments in securities in currencies other than the currency of a Sub-Fund is converted into the Sub-Fund's currency at the exchange rate applicable at purchase date.

#### I) INCOME

Interest income is accrued on a daily basis and may include the amortization of premiums and accretions of discounts. Bank and time deposits interest income are recognized on an accrual basis.

Dividends are credited to income on the date upon which the relevant securities are first listed as 'ex dividend' provided that the amount of a dividend is known with reasonable certainty.

The Investment Manager may, for such time as it considers appropriate, choose to waive all or part of the fees that it is entitled to receive, or to reimburse a Sub-Fund for other expenses, in order to reduce the impact such fees and expenses may have on the performance of the Share Class. The Investment Manager will reimburse on a monthly basis the amount of the fee waiver or expense reimbursement to the respective Sub-Fund. Fees that have been previously waived and expenses that have been previously reimbursed may be recovered by the Investment Manager.

The waived fees are settled monthly on a net basis with management and administration fees and therefore they are presented as one line item in the Statement of Assets and Liabilities under "Management fees and administration fees payable."

The amounts of the fees waived for the current year is separately disclosed as "Fees Waived and Expenses Reimbursed" in the Statement of Operations and Changes in Net Assets.

#### **K) USE OF ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### 14. SWING PRICING

The Board of Directors of the Fund implemented a price adjustment policy in order to protect the interests of the Fund's Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholders from the worst effects of dilution. It achieves this purpose by adjusting the price at which deals in a Sub-Fund are transacted. In other words, Sub-Funds' prices may be adjusted up (when there are large net capital inflows) or down (when there are large net capital outflows) depending on the level and type of investor transactions on a particular day. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Fund will only trigger an adjustment in the price when there are net capital flows.

The Board of Directors of the Fund have applied partial swing pricing method for the year. Accordingly, rather than setting a single swing threshold with a single swing factor for each Sub-Fund, the Board of Directors of the Fund has chosen to deploy a more refined approach, with multiple thresholds and multiple factors. The application of swing pricing, the thresholds and factors may vary from Sub-Fund to Sub-Fund. If on any Valuation Day the aggregate transactions in Shares of a Sub-Fund result in a net increase or decrease of Shares which exceeds such threshold preset by the Board of Directors from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the Net Asset Value of the Sub-Fund will be adjusted by an amount not exceeding 2% of that Net Asset Value, which reflects both the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. Once an adjustment is made to the price, that price is the official price for that Sub-Fund for all deals that day.

Effective as of 10 August 2020, the Board of Directors of the Fund determined to only apply an adjustment in the price when there are net capital outflows to a Sub-Fund.

During the year ended 31 March 2022, Asia Total Return Bond Fund, Pacific Tiger Fund, Asia Innovative Growth Fund, India Fund and Asia Small Companies Fund have applied swing pricing.

Upon request, the Fund will also provide investors the impact of swing pricing on a day in which that investor has transacted, with an appropriate lag before such information is provided. Investors should be aware that the Board of Directors of the Fund may change the swing thresholds and swing factors at any time without notice to investors, so the information provided may not be indicative of the impact that swing pricing may have on future transactions in the shares of the Sub-Fund.

A periodic review is undertaken in order to verify the appropriateness of swing factor being applied.
